CELLS

The Ultimate Legend of Big John

```matlab
page{1} = 'You could find him on the field almost any day.';
page{2} = 'Tall, dark hair, and eyes of steel grey.';
page{3} = 'They say he pulled a Frisbee ''bout half a mile,';
page{4} = 'And when he''d stick in the corner, you could almost catch
 a smile';
page{5} = 'Oh Big John.';
```

Code

```matlab
fprintf('\n');
for ii = 1:length(page)
    fprintf('%s\n',page{ii});
end
fprintf('\n');
```

```
You could find him on the field almost any day.
Tall, dark hair, and eyes of steel grey.
They say he pulled a Frisbee 'bout half a mile,
And when he'd stick in the corner, you could almost catch a smile
Oh Big John.
```
